

EMBROIDERY MACHINE

Single Head

Embroidery machine

WYE1501

Embroidery area: 360X220mm

Main features:

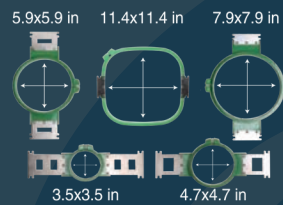

- Suitable for cap/tshirt/flat embroidery
- Auto BMP Pattern Recognition for Embroidery
- 10 inch touch screen computer supporting 16 languages
- 20,000,000 stitches memories matched with 200 patterns
- DST,DSB format are compatible
- Automatic thread break detection
- Automatic thread trimming
- 270°wide cap frame
- Automatic color change
- Emergency stop
- USB port and WIFI to transfer design available
- Various embroidery hoop sizes to meet customer's demands
- With foot wheels on machine body,easy for moving

Main Parameter:

Model	WYE1501
Head#	1
Needle#	15
Monitor	10"Lcd display
Operating Language	Chinese, English, French, Spanish, Portuguese, Turkish, German, Dutch, Thai, Arabic, Romania, Italian, Vietnamese, Hebrew, Polish, etc
Embroidery area	360*220mm
Speed	Max 1000SPM
Weight	45KG
Packing Size	1100*800*850mm
Voltage	100-250V
Power	150w

Accessories:

Single Head

Embroidery machine

WY1201C/WY1501C

Embroidery area: 510X360mm

Main features:

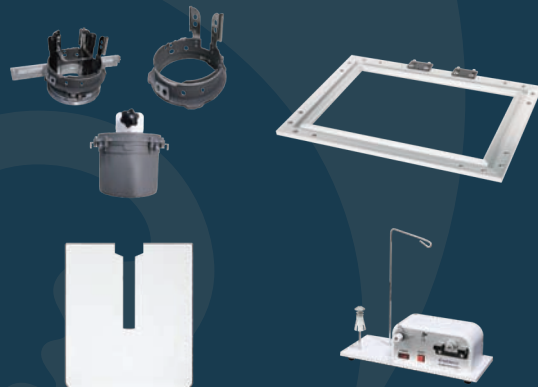

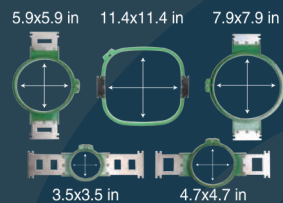

- Suitable for cap/tubular/tshirt/flat embroidery
- Auto BMP Pattern Recognition for Embroidery
- 10 inch touch screen computer supporting 16 languages
- 20,000,000 stitches memories matched with 200 patterns

Professional Design Software iSEW EMCAD

- Provide beginners and professionals with more affordable and powerful tools
- Customized for professional stores and retail end users
- Post-import Auto-Processing for Embroidery Machine Format
- Universal for use on multi-brand machines, automatically input in multiple languages and fonts to generate embroidery files
- Humanized user interface
- Customizable working interface
- Multiple pattern view options

Alphabet embroidery Edit letter pattern:

The program provides a variety of built-in fonts to facilitate the editing of letter patterns. Handling of letter pattern fill stitches and letter outline running stitches. And provide a variety of alphabetical arrangements.

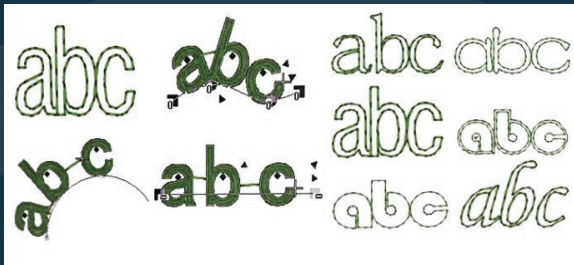

Photo embroidery:

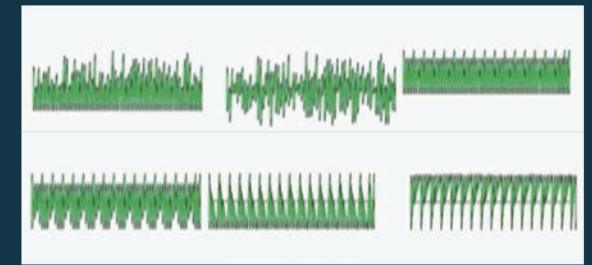

The program can automatically recognize and pattern Jpeg and Jpg format image files, directly transfer high-definition photos of people, etc. The machine and the operating head can automatically digitally pattern and embroider.

Jagged edge effect:

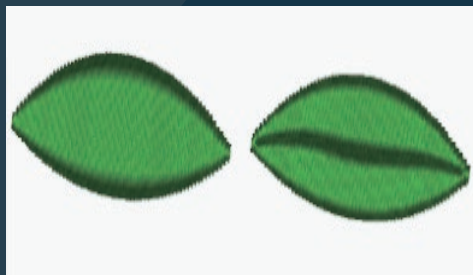

The program provides multiple processing methods for jagged edges.

- Single-sided sawtooth and double-sided sawtooth in the common way
- Single-sided jagged edges and double-sided jagged edges processed according to the scaling coefficient and scaling quantity
- Special Effects

Custom segmentation effect:

Use one or more custom curves as dividing lines, and use these dividing lines to divide the already completed patterns, making the effect of leaves or petals more natural.

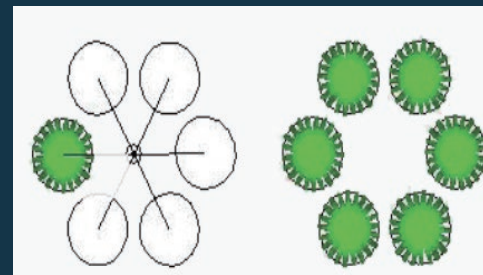

Support multiple stitch patterns:

Supports various contour stitches, single stitches, theme single stitches, rope-like stitches, round-trip stitches, etc.

Copy effect:

The program can copy a series of objects in a garland, matrix and linear manner.

Intelligent corner effect:

The processing result of the corner can be adjusted by customizing the corner attribute. Currently, two corner effects are supported, including beveled seam corners and cap-shaped corners.
